METALS

HIGH-GRADE GOLD EXPLORATION AND DEVELOPMENT

in a Tier 1 Mining Jurisdiction

**DUQUESNE WEST
GOLD PROJECT**

CSE: AUOZ

Corporate Presentation
February 2023

CAUTIONARY STATEMENTS

DISCLAIMER

Emperor Metals Inc. is a private company with an application in progress to obtain a public listing on the Canadian Securities Exchange, or CSE, which is operated by CNSX Markets Inc. This proforma presentation is a post-financing, post-acquisition and post-listing depiction of Emperor Metals Inc. Neither the CSE nor its Market Regulator (as that term is defined in the Trading Rules and policies of the CSE) accepts responsibility for the adequacy or accuracy of information delivered in this presentation.

INFORMATION ONLY, NO OFFER OR SOLICITATION, NO UNAUTHORIZED DISTRIBUTION

This presentation does not constitute an offer to sell or solicitation of an offer to buy any of the securities described herein. The sole purpose of this presentation in verbal, paper or electronic form is strictly for information. This document is strictly private and confidential, and is intended for the person to whom it is provided by Emperor Metals Inc. The contents of the document may not be copied, distributed or reproduced in whole or in part, nor passed to any third party, without the prior, written permission of Emperor Metals Inc.

FORWARD LOOKING STATEMENTS

Certain statements and/or graphics in the Company's press releases, web site information and corporate displays, among others, constitute "forward-looking statements". These statements are based on information currently available to the Company and the Company provides no assurance that actual results will meet management's expectations. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by terms such as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan", or their conditional or future forms.

Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results relating to, among other things, results of exploration, project development, reclamation and capital costs of the Company's mineral properties, and the Company's financial condition and prospects, could differ materially from those currently anticipated in such statements for many reasons such as: changes in general economic conditions and conditions in the financial

markets; changes in demand and prices for minerals; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with the activities of the Company; and other matters discussed in this presentation. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. The Company does not undertake to update any forward-looking statement that may be made from time to time by the Company or on its behalf, except if required to do so by applicable securities laws. These and other factors should be considered carefully, and recipients should not place undue reliance on the Company's forward-looking statements.

FORWARD LOOKING STATEMENTS AND/OR INFORMATION RELATED TO EXPLORATION

Relating to exploration, the identification of exploration targets and any implied future investigation of such targets on the basis of specific geological, geochemical and geophysical evidence or trends are future-looking and subject to a variety of possible outcomes which may or may not include the discovery, or extension, or termination of mineralization. Further, areas around known mineralized intersections or surface showings may be marked by wording such as "open", "untested", "possible extension" or "exploration potential" or by symbols such as "?". Such wording or symbols should not be construed as a certainty that mineralization continues or that the character of mineralization (e.g. grade or thickness) will remain consistent from a known and measured data point. The key risks related to exploration in general are that chances of identifying economical reserves are extremely small.

THIRD-PARTY INFORMATION

Certain statements and/or graphics in the Company's press releases, website information and corporate displays, among other materials, may contain third-party historical data and other information that have not been verified by Emperor Metals Inc. and may not be accurate or complete, therefore the information should not be relied upon.

QUALIFIED PERSON, GOVERNANCE AND RISKS

Michael Dufresne, M.Sc., P.Geol., P.Geo., serves as a Qualified Person, as defined by National Instrument NI 43-101, responsible for reviewing and approving the technical content of all materials publicly disclosed by Emperor Metals Inc., including the contents of this presentation.

ABOUT EMPEROR METALS

Gold Exploration &
Development in
Quebec

- ▶ Focused on advancing the flagship **Duquesne West Gold Project**, in the Noranda Mining Camp
- ▶ Historical mineral resource of
 - ¹ **727,000 oz Au at 5.42 g/t with average width of 5.71 m (2011 43- 101 Report)**
- ▶ **>\$20 million previously** spent on exploration and development
- ▶ **8 gold zones are open** for resource expansion drilling
- ▶ **Phase I ~10,000m drill program expected to commence in Q2, 2023**
- ▶ Tight share structure: **~48M shares outstanding | ~\$7M market cap**
- ▶ **Option to earn 100%** ownership of the project
- ▶ Proud member of the **Metals Group**

¹ Watts, Griffis, and McOuat Consulting Geologists and Engineers, Oct 20, 2011, Technical Report and Mineral Resource Estimate Update for the Duquesne-Ottoman Property, Quebec, Canada for XMet Inc. Please see Emperor Metals News

Historic resource estimates presented herein are historic in nature. The Company's qualified person has not completed sufficient work to confirm the results of the historical resource estimates. The Company is not treating these historic resource estimates as current mineral resource estimates but are considered relevant as a guide to future exploration and

ADVANCING A HIGH-GRADE GOLD DEPOSIT

FIRST CLASS LOCATION

DEPOSIT TYPE

High-Grade Archean
Lode Gold Deposit

LOCATION

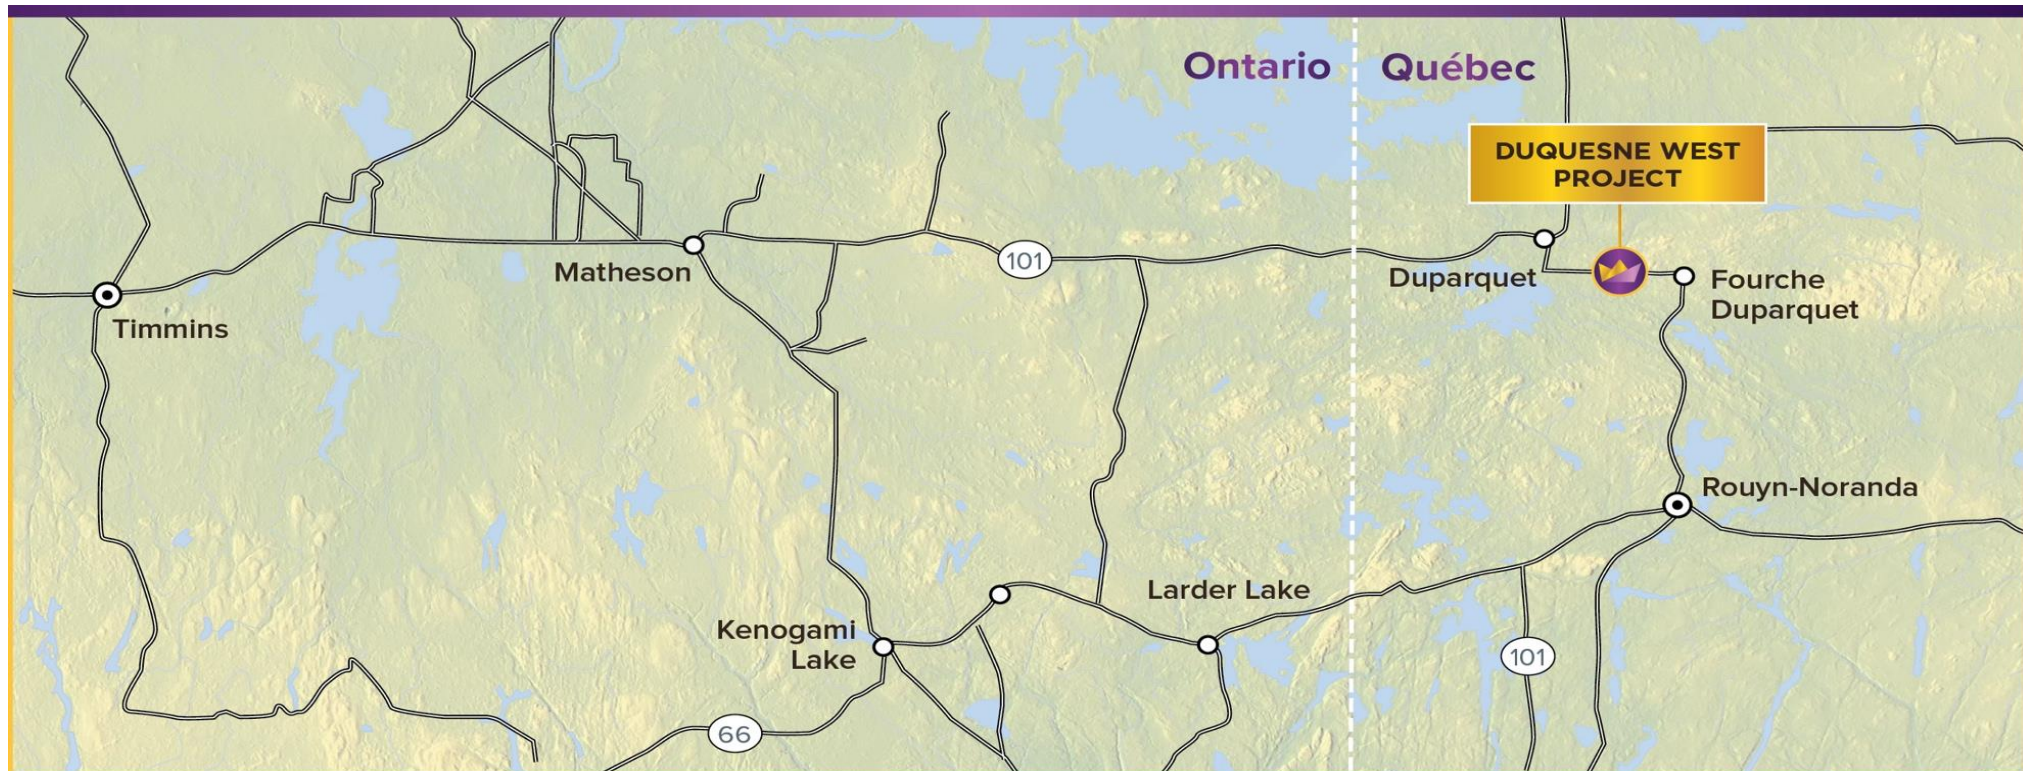

In the prolific
Timmins, Kirkland Lake, Rouyn-
Noranda Districts. Just across
border of Timmins, Ontario. 35
km North of Rouyn-Noranda

ACCESS

Property is cut
by highway that leads to
Rouyn-Noranda.
International Airport in
Rouyn-Noranda

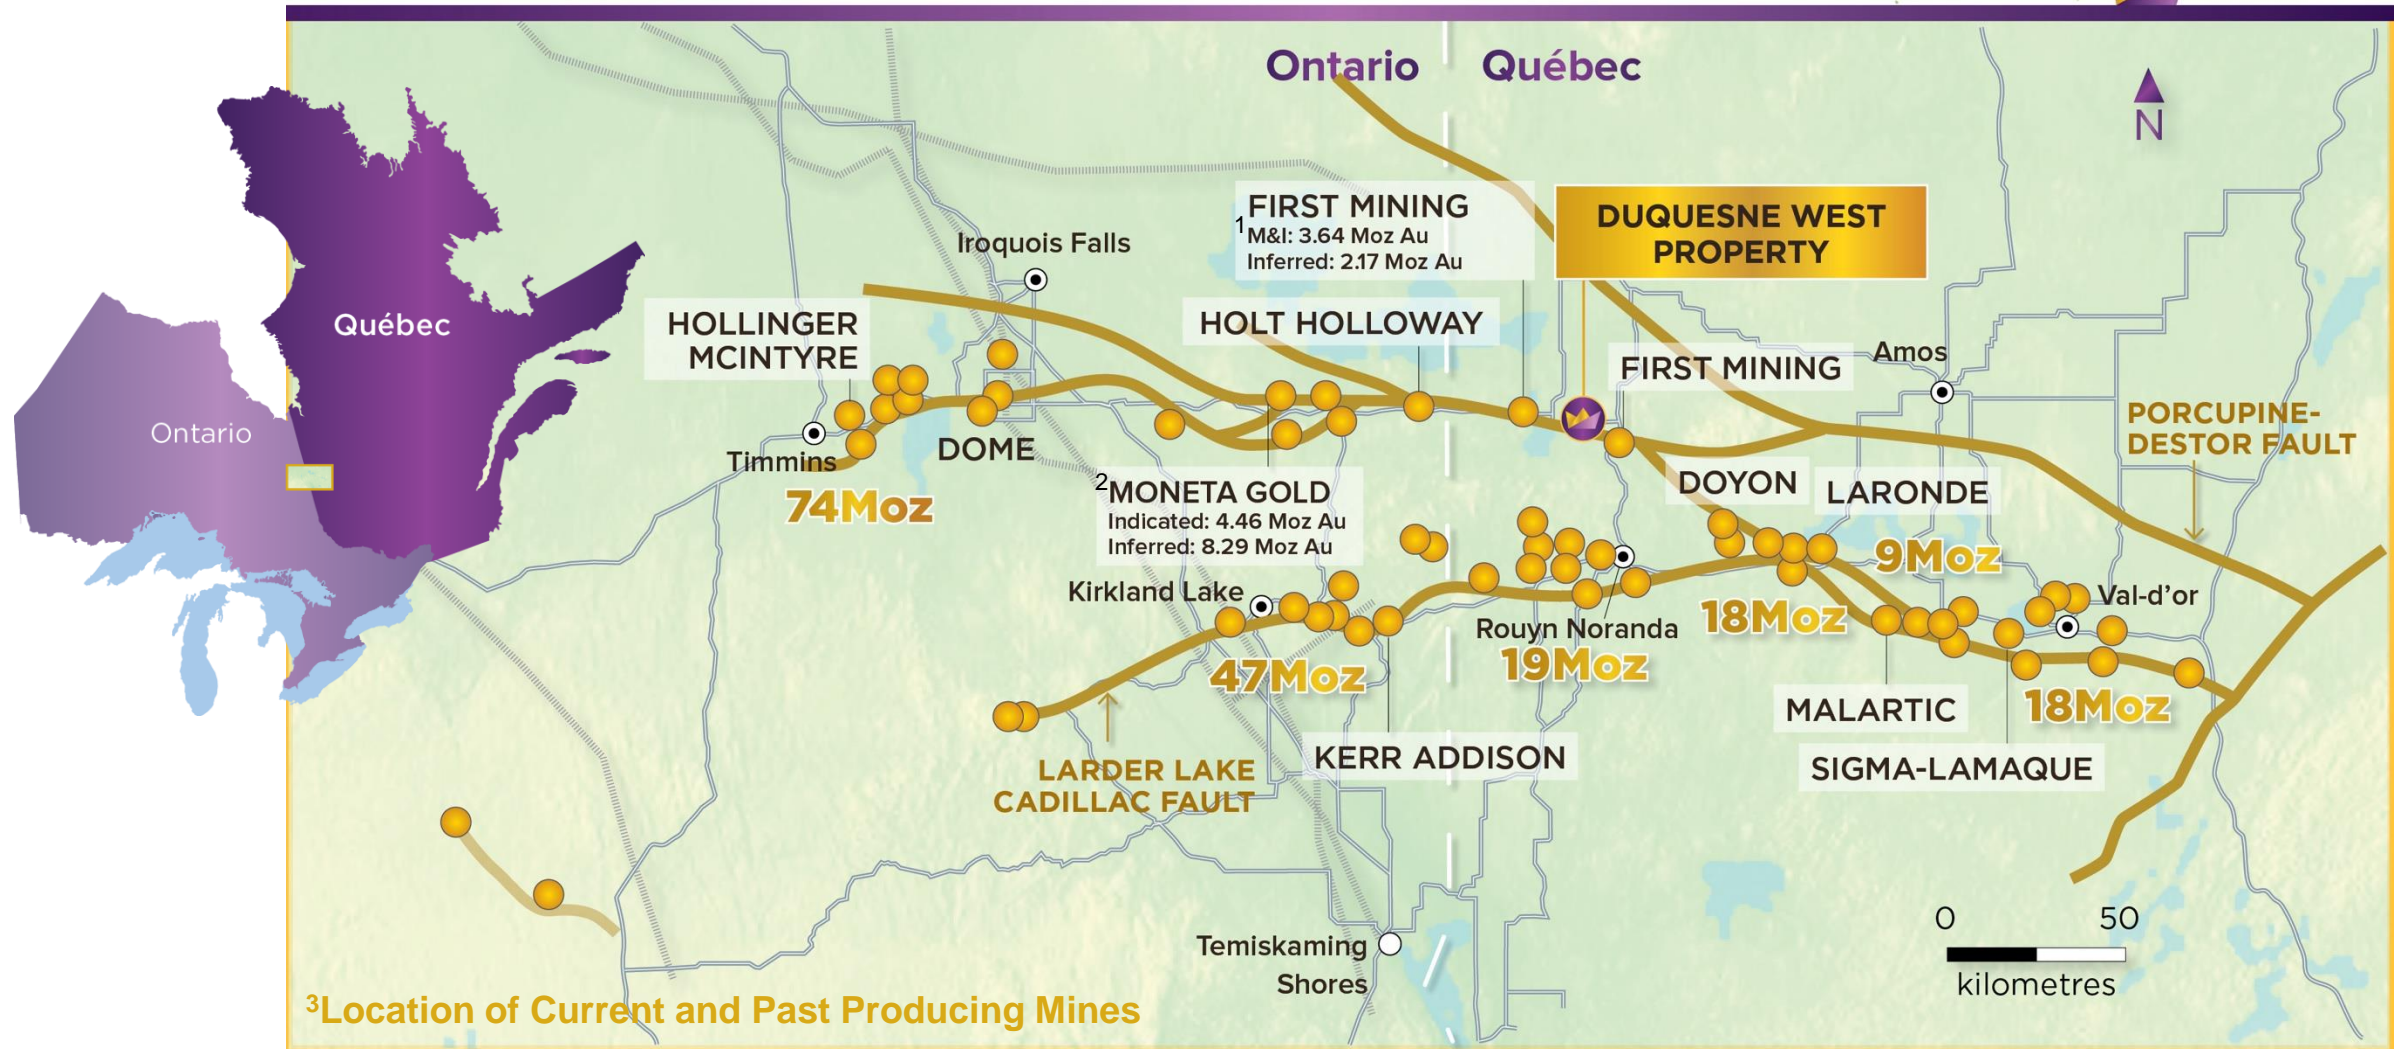

EARN-IN OPTION

To acquire 100% from
Globex Resources Inc

THE DUQUESNE WEST PROJECT

IN A TIER 1 DISTRICT

¹ INNOV EXPLORATION, September 12, 2022, NI 43-101 Technical Report and Mineral Resource Estimate Update for the Duparquet Project, Quebec, Canada for First Mining Gold Corp.

² Ausenco Engineering Canada, Inc., September 7, 2022, NI 43-101 Report & Preliminary Economic Assessment of the Tower Gold Project, Northeastern Ontario, Canada for Moneta Gold Inc.

³ Resident Geology Reports and Other Public Sources.

THE PORCUPINE-DESTOR FAULT IN QUEBEC, CANADA

RICH HISTORY OF PROLIFIC MINING

- ▶ The Abitibi Region is one **of the world's most prolific gold producing districts** with ~200 million ounces of gold produced to date¹
- ▶ The **Porcupine-Destor fault zone (PDFZ) transects the property**
- ▶ Total historical gold production from the many **high-grade gold deposits** along the east-west trending PDFZ exceeds 110 million ounces¹

BENEFITS OF WORK IN QUEBEC

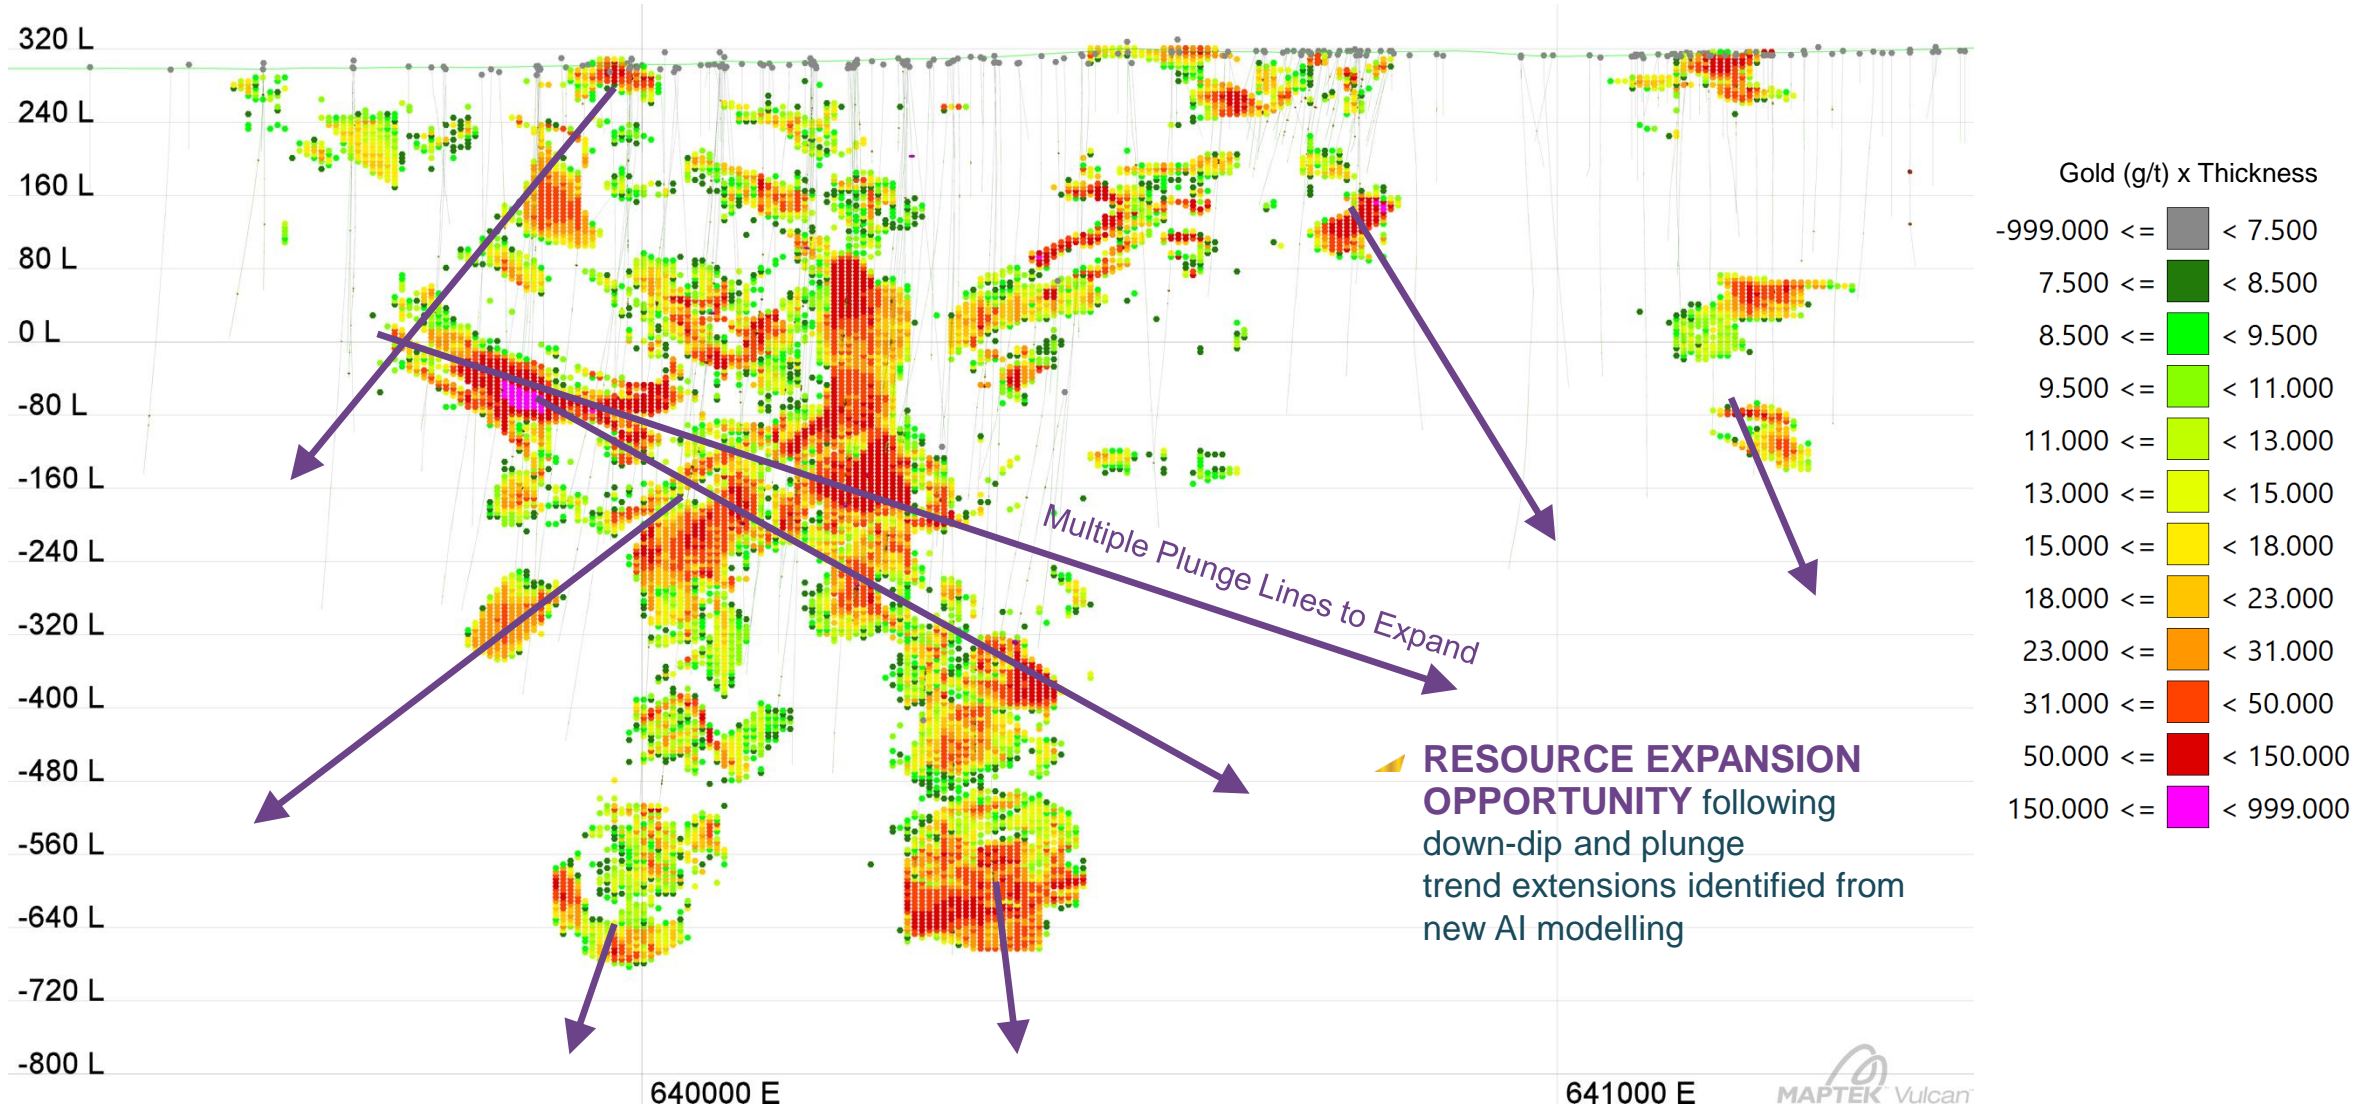

- ▶ **Mining Tax Act** offers one of the best business climates for mining investment including abundant **support for companies in all phases of the mining cycle**
- ▶ The flow-through share system allows individuals can **deduct up to 120%** of the cost of their investment
- ▶ Politically stable and **Mining Friendly**

NEW TARGETS FROM A.I. MODELLING

Preliminary Model - Grade x Thickness (Looking North)

NEW TARGETS FROM A.I. MODELLING

Potential For Movable Stopes Based Upon Optimization of Existing Data

POTENTIAL EXAMPLE STOPE GRADE AND THICKNESS

Grade (Au, g/t)	Stope Thickness (m)
22.043	5.40
16.255	11.11
15.860	11.38
15.669	11.37
15.399	14.68
14.249	14.75
13.991	16.81
13.701	19.41
13.701	19.41
12.854	15.76
7.381	17.13
6.661	17.85
5.256	20.80

CRITERIA USED

- ▶ Minalbe Shape Optimizer (MSO) used Gold Cutoff of 3 g/t Au and Gold Cap of 30 g/t Au.
- ▶ Minimum dimensions 2.5 m (width) x 8 m (length) x 4 m (height)
- ▶ We used ID³ (Inverse Distance Cubed) for estimation in the A.I. modelled grade shells.

OPTION AGREEMENT TO EARN 100% INTEREST DUPARQUET WEST

3.00% GMR with buydown to 2.00% for \$1M CAD or pro rata; Globex covers 1% existing NSR., and a first right of refusal should Globex decide to sell the remaining 2% GMR .

Year	Due Date	Cash	Shares	Work Commitment	Work Commitment Date
0	Agreement Signing	\$500,000 ¹	1,500,000 ¹	\$250,000	Oct 1, 2023
1	Anniversary Date Dec 27th, 2023	\$500,000	1,500,000	\$750,000	Oct 1, 2024
2	Anniversary Date	\$500,000	1,500,000	\$1,250,000	Oct 1, 2025
3	Anniversary Date	\$1,000,000	3,000,000	\$2,000,000	Oct 1, 2026
4	Anniversary Date	\$2,500,000	3,500,000	\$3,250,000	Oct 1, 2027
5	Anniversary Date	\$5,000,000	4,000,000	\$4,500,000	Oct 1, 2028
Total		\$10,000,000	15,000,000	\$12,000,000

THE DUQUESNE WEST GOLD PROJECT

NEXT STEPS

UPCOMING WORK

- ▶ Data & core review
- ▶ Review geology
- ▶ Update A.I model and enhance geological models
- ▶ Diamond drilling
- ▶ Planned **Q2 2023 Drilling program ~10,000m**

3D MODELLING USING A.I. TECHNOLOGY

MANAGEMENT AND DIRECTORS

- Management and Advisory of over 20 Public Mining Companies with extensive experience in the Public Mining Sector and Capital Markets
- Raised more than \$500 million towards Exploration, Development and Production projects
- Success through Discovery, Development and Production Cycles
- Certain Management and Advisory named two times to TSX Venture 50™

JOHN FLOREK M.SC., P.GEOL. **President, CEO, and Director**

+30 years of technical and senior management experience working for major and junior mining companies, including roles as Founder, VP, and Director. He has helped identify and develop significant asset value for mines and exploration projects from grass roots through to development. John has worked for several majors including, BHP, Placer Dome, Barrick, Teck, and Detour Gold/Kirkland Lake Gold/Agnico Eagle

SEAN MAGER B.COMM. **CFO and Director**

+25 years mining sector, extensive corporate development, stakeholder relations, regulatory, financial and operating expertise. Former CFO & COO at Brilliant Resources Ltd. Current CFO for Benchmark Metals – BNCH.V

ALEX HORSLEY **Corporate Development and Director**

+16 years experience in the mining sector and capital markets, finance, marketing, management, corporate development, and communications. Former CEO of Emperor Metals

JOHN WILLIAMSON P.GEOL. **Independent Director and Chairman**

+30 years experience in the mining sector, chairman and founder of more than 20 successful companies in Canada and around the globe. Founder of the Metals Group of companies and the current CEO of Benchmark Metals - BNCH.V

IAN HARRIS B.SC. ENG. **Independent Director**

+20 years experience in the mining sector, accomplished senior mining executive leading worldwide mining projects from open-pit and underground development to processing operations. Previously VP and Country Manager for Corriente which was taken over for \$690 million. Ian is the current CEO of Libero Copper

ADVISORY COMMITTEE

SHAWN KHUNKHUN

+18 years of experience working in capital markets, mineral exploration, and mine development sector with a focus on enhancing shareholder value. CEO of Dolly Varden Silver, Chairman of Strikepoint Gold, and a Director for Goldshore Resources

EWAN WEBSTER PHD. P.GEO

+ 10 years of experience in the mining sector as a corporate executive, director, and senior geologist for numerous public companies across North and South America, covering a variety of different deposit types. Ewan is currently the President & CEO of Thesis Gold Inc

MICHAEL DUFRESNE M.SC., P.GEOL., P.GEO

+ 30 years working in exploration and mining sector, a professional geologist that has worked on several world-class mining projects across numerous jurisdictions around the world

WHY INVEST?

TIER 1 JURISDICTION

- Timmins, Kirkland Lake & Rouyn-Noranda Districts in the Noranda Mining Camp
- Roads, power, mills & and a highly-skilled local workforce

EXISTING HISTORIC RESOURCE

- ¹4,140,000 t grading of 5.42 g/t Au containing inferred 727,000 oz Au with an average width of 5.71 m. ²

EXPLORATION PROJECT WITH SIGNIFICANT POTENTIAL TO GROW

- **Phase I ~10,000m drill program set for Q2 2023**
- 8 Gold zones are open for resource expansion drilling
- New A.I. modelling shows a range of resource expansion opportunities
- 105,000 m of drilling completed and >C\$20M spent to date
- Lower grade open pit opportunity
- High-grade archean lode gold deposit

² Historic resource estimates presented herein are historic in nature. The Company's qualified person has not completed sufficient work to confirm the results of the historical resource estimates. The Company is not treating these historic resource estimates as current mineral resource estimates but are considered relevant as a guide to future exploration and are included for reference purposes only.
