John Florek, Chief Executive Officer of the Corporation states,

“We are thrilled to be partnering with SCP on this brokered financing; a strategic collaboration that will enable us to fully dedicate our efforts to unlocking the true potential of this exceptional deposit. With Emperor Metals’ Maiden Mineral Resource Estimate at the Duquesne West Property effectively doubling the historical resource, we see a clear and compelling path to increasing the resource once again through continued, targeted exploration.

The strength of the market and the support of our stakeholders will be instrumental in realizing this growth potential, enabling us to build on the momentum of our recent standout intercepts; including 21.7 metres of 35.2 g/t Au within the conceptual open pit and 10.8 metres of 15.8 g/t Au in the underground environment. These exceptional results underscore the scale and quality of the deposit, both at surface and at depth.

Our goal is to maintain the strong momentum and success we’ve built on this project. To that end, we plan to immediately launch our next drill program following the close of this financing, driving us toward even greater growth and discovery.”

The Offered Securities will be offered in each of the provinces of Canada pursuant to the “listed issuer financing exemption” under Part 5A of National Instrument 45-106 – *Prospectus Exemptions*, as amended by Coordinated Blanket Order 45-935 – *Exemptions from Certain Conditions of the Listed Issuer Financing Exemption* (the “**LIFE Exemption**”). The Common Units may also be offered in the United States or to, or for the account or benefit of, U.S. persons, by way of private placement pursuant to exemptions from the registration requirements of the *United States Securities Act of 1933*, as amended (the “**U.S. Securities Act**”) and in other qualifying jurisdictions outside of Canada and the United States that are mutually agreed to by the Corporation and the Agents on a private placement basis pursuant to relevant prospectus and registration exemptions in accordance with applicable laws.

Subject to the satisfaction of certain conditions under applicable Canadian securities legislation, the securities issued under the Offering pursuant to the LIFE Exemption are not expected to be subject to a hold period in Canada under applicable Canadian securities legislation.

There is an offering document related to the Offering (the “**Offering Document**”) that can be accessed under the Corporation’s profile on SEDAR+ at www.sedarplus.ca and on the Corporation’s website at www.emperormetals.com. Prospective investors should read the Offering Document before making an investment decision.

The net proceeds of the Offering will be used to advance the Corporation’s Duquesne West Project and Lac Pelletier Project in Quebec, and for general and administrative expenses and working capital purposes, as further described in the Offering Document.

In connection with the Offering, the Corporation has agreed to pay the Agents a cash commission equal to 6.0% of the gross proceeds of the Offering and issue to the Agents warrants (the “**Agents’ Warrants**”) exercisable for a period of 24 months following the closing date, to acquire in aggregate that number of Common Shares which is equal to 6.0% of the total number of Offered Securities issued under the Offering at an exercise price equal to the Common Issue Price.

Closing of the Offering is expected on or about October 7, 2025, or such other date as the Corporation and Agents may agree.
